

<u>PMACS VPN – Windows Automated Install and Configuration</u> (Preferred)

This guide will help you install and configure Pulse Secure VPN client automatically. It will also show you how to properly disconnect when you're done with your session.

Prerequisites:

- 1. Windows
- 2. Local administrator rights
- 3. Firefox
- 4. Java

Installation:

- 1. Make sure you have installed Firefox. If you do not have it, please visit <u>https://www.mozilla.org/en-US/firefox/new/</u>.
- 2. Make sure you have Java installed. If you do not have it, please visit www.java.com to install.
- 3. From Firefox go to https://remote.pmacs.upenn.edu
